What an exciting year this has been for the Foundation. This past year was one of challenges, continued growth, and accomplishments. To address these challenges, the Directors voted enthusiastically to change the name of the Foundation from the Oklahoma City Geological Foundation to the Oklahoma Geological Foundation. Our name change will strengthen our resolve and commitment to better serve all students, teachers and schools throughout the state of Oklahoma.

The Foundation has a strong team of enthusiastic and talented leaders who are committed to promoting earth science and the study of geology in our schools. Our main focus is directed toward the students and educators who are involved in these programs. Throughout this Annual Report and in the additional materials that you will receive during the remainder of the year, you will see this theme of commitment and leadership from the Board of Directors repeated time after time. With a long-term perspective always in mind, together we can create a stronger and better education for students of all ages.

In brief, the Foundation’s net asset value continued to increase through wonderful gifts from our donors, coupled with the Board’s diligent and effective investment management. Even as assets grew, the Foundation was still able to more than double its annual disbursements in 2010 from those made in 2009. This fact alone makes 2010 a huge success. New endowments were also established in 2010 and are described in more detail within this Report.

As announced last year, the Foundation is supporting the Oklahoma City Geological Society and the 2011 AAPG Mid-Continent Section Meeting in early October of this year. Most of the Directors are involved in some way to help produce one of the best Meetings ever. Our Annual Awards Banquet, Legends’ Dinner, and Directors’ Christmas Reception continue to grow in size and importance and are always well-attended highlights of the year.

Over the past year, as in prior years, we were able to provide benefits to many students, teachers, and schools in Oklahoma. In the case of some of our recipients, the financial assistance provided by the Foundation was their sole source of support and allowed them to keep pursuing their dreams.

These results are made possible only from the generosity of our many past and current donors. Whether your gifts help to energize the next generation of leaders, promote earth science and geological studies, support the work of our educators, or simply help to fulfill the dreams of our students and teachers, your commitment to the mission and vision of the Oklahoma Geological Foundation truly does make a difference.

In a letter to the Foundation, one of last year’s endowment recipients stated, “I look forward to one day being able to support young geoscience majors as the Foundation has done for me because it truly does make a difference.” This Annual Report is offered in deepest gratitude and recognition of your support.

Warm personal regards,

Thomas C. Cronin, Chairman
Our Mission

The Mission of the Oklahoma Geological Foundation is to support, exclusively within the meaning of Section 501(c)(3), charitable, scientific, literary and educational activities with the primary emphasis in the science of geology and related fields.

Our Vision

Since Foundation’s founding in 1993, funding programs in science education have always been of a high priority. The Founding Directors envisioned the Foundation as a primary funding source that directly benefits numerous programs for students, teachers and schools that are involved in the earth sciences.

With those funding objectives in mind, the Foundation has annually provided scholarships, awards and grants throughout Oklahoma to students enrolled in elementary and high schools and undergraduate and graduate programs in college; along with many programs that support teachers and educational institutions.

The initial programs of the Foundation, such as the Frederick H. and Lois M. Kate Endowment, the Suzanne Takken Memorial Fund, and the Science Fair Awards have exemplified the goals and objectives of our Charter Members.

In 2006, the Foundation broadened its vision with the addition of four new programs. Focusing on elementary and secondary schools, the Excellence in Earth Science Education Awards (ESEE), the Kate Excellence in Earth Science Education Award, and the Beth Cronin Elementary School Endowment were created to foster awareness and to encourage participation in earth science programs for students, teachers and schools. With continuing education and petroleum geology as its focus, the Kenneth Stewart Cronin Lecture Series was the fourth program established in 2006. The Lecture Series was initiated to benefit the members of the Oklahoma Geological Society, students, and local professionals. In 2007, the Foundation added a new program for college students - the Herbert G. and Shirley A. Davis Oklahoma State University Scholarship.

In 2008, the Philip Boyle Foundation and the Oklahoma Geological Foundation Elementary and Secondary School Endowment, and the John Gatchell Earth Science Teaching Endowment were established. The focus of these programs was on elementary and secondary education.

In 2010, the Foundation established the Charles E. Branham Geological Library Endowment, which will support libraries and programs in elementary and secondary schools, as well as the Society’s Library. The Foundation also joined with the Oklahoma Geological Survey and The Oklahoman to provide supplemental teaching resources to Oklahoma students in grades 7 through 12 with The Oklahoman’s “Newspapers in Education” program. It’s an exciting program whereby each October, in conjunction with Earth Science Week, lesson plans on subjects concerning the science of geology, energy and other earth science issues. More than 700 schools and 15,000 students will be exposed to this program on an annual basis.

The Directors are committed to the growth of the Foundation. By expanding traditional programs and establishing new ones, we are always mindful of the mission of the Foundation and the importance our programs have to students, teachers and schools in our communities.

Our Foundation's Financial Condition, as of December 31, 2010

The primary objective of the Oklahoma Geological Foundation is to provide financial support to students, teachers and schools involved in the earth sciences. The Foundation also supports programs that encourage the awareness of the science of geology, as well as fostering training, education and career development in earth science studies.

As a result of prudent investment management and improved conditions in the financial markets during the last half of 2010, the net asset value of the Foundation increased to $1,080,118. This figure represents an increase of $160,159 year over year. Currently, the financial investments of the Foundation are held in a combination of cash instruments and equities.

For the fiscal year ending December 31, 2010, the annual total income was $175,656. Of this amount, donations totalled $139,262 (or 79%), interest and dividend income was $30,839 (or 18%), with ticket sales to the Foundation’s events, $5,555 (or 3%). Over the last five years, due to the generosity of donors, the Foundation has received an average of $164,876 per year.

The expenses incurred during 2010 totaled $73,820. Of this amount, our 2010 Awards and Scholarships accounted for $46,500 (or 63%), normal operating expenses were $11,504 (or 16%), the Legends’ Dinner was $8,300 (or 11%), our Spring Awards Banquet was $4,639 (or 6%) and the Foundation’s receptions totaled $2,877 (or 4%).

The total amount of the Awards and Scholarships distributed by the Foundation each year is dependent upon the donations received in the prior fiscal year and the requests for support presented to the Foundation. The total disbursements of $46,500 distributed in 2010 compares with total disbursements of $17,195, $18,500, and $14,500, respectively, for 2009, 2008, and 2007.

The Investment Policy, implemented by the Directors of the Foundation in 2009, is designed to ensure that existing and future funds managed by the Foundation will provide ample annual income to provide for its charitable purposes in perpetuity, regardless of existing economic or market conditions.

The Policy has four directives that serve to: maximize the capital preservation of the invested funds; minimize the funds against the erosion from inflation; maximize the generation of annual income; and maximize the capital appreciation of the invested funds.

These directives have allowed the Foundation to maintain a portfolio of high-quality equity investments and fixed-income securities. The asset allocation of the Foundation’s accounts between the two categories allows for the continued growth of the value of the accounts while maintaining the stability of income expectations through time.

The Foundation’s asset allocation model for its investments is shown below, as well as the returns for the last two years. The Foundation’s Investment Committee and Portfolio Manager, BancFirst Investment Group, continually monitor the fund allocations and investment returns, and rebalances the Foundation’s investments as needed.

| ASSET ALLOCATION TARGETS FOR INVESTED FUNDS AS OF DECEMBER 31, 2010 |
|---|---|
| TARGET RANGE | ACTUAL RANGE |
| Equity (70%): 60 – 80% | 75.50% |
| Fixed income (30%): 20 – 40% | 24.41% |

| INVESTMENT RETURNS |
|---|---|
| Year ending: | 2009 | 2010 |
| Foundation Accounts: | 30.0% | 16.8% |
| Class Blended Benchmark: | 20.5% | 12.6% |

The Investment Policy is available for review on the Foundation’s web site:

www.okcgeofoundation.org

Also listed on the web site are other documents pertaining to the operation of the Foundation. If you should have any questions, please feel free to contact one of the Directors.
THE FREDERICK H. & LOIS M. KATE ENDOWMENT AWARDS

The flagship of the Foundations funds and endowments, the Frederick H. and Lois M. Kate Endowment, was established in May, 1996, by Fritz and Lois Kate to endow pre-college awards programs directed through the Oklahoma City Geological Society. Since 1996, the endowment has continued to fund these awards, and has ultimately expanded to include college level awards. Because of the continued success of the Kate Awards, this endowment has been the model used for the establishment of future endowments and scholarships for the Foundation.

Fritz and Lois Kate were not only Charter Members of the Foundation; they were the heart and soul of the organization in the early years. Mr. Kate was a very active member of the Oklahoma City Geological Society. He served in many capacities and on the Board of the Society. He was recognized as an honorary member of the Geological Society in 2001. In 2007, he was honored by the Foundation as one of its Legends at its inaugural Legends’ Dinner. Mr. Kate died in 2003.

Students from Oklahoma State University and the University of Oklahoma have received over $40,000 in cash awards from the Kate Endowment.

THE FREDERICK H. & LOIS M. KATE EXCELLENCE IN EARTH SCIENCE AWARDS

The Frederick H. and Lois M. Kate Excellence in Earth Science Awards was established to support pre-college students and programs in the Oklahoma City schools. The principle focus of this Award is to foster and expand the long-standing Science Fair Awards as directed by the Oklahoma City Geological Society. This program has been in existence since 1956, originally called the Certificates of Merit and then later the Eason Awards. The first awards were $10.00, and were given to 16 senior and junior high school students of Oklahoma City.

The Kate Award is given in conjunction with the Foundation’s Excellence in Earth Science Education Awards, which were established in 2006. Both Awards serve to foster a strong interest to attend college and pursue studies in the geosciences in younger students.
THE SUZANNE TAKKEN MEMORIAL FUND

Bonnie and Dennis Smith, Ralph Espach, Jr., and Robert Northcutt established the Suzanne Takken memorial fund in 1998 to honor the memory of Suzanne Takken. Ms. Takken was a highly respected independent geologist in Oklahoma City.

Ms. Takken was an active member of the Oklahoma City Geological Society and served on many of the Society’s committees. Throughout her career, she was very active in professional organizations on the national level. In 1982, she was recognized as an honorary member of the society. Suzanne Takken was also a Charter member of the Oklahoma Geological Foundation. Ms. Takken died in 1997. In 2009, the Foundation presented its Legends’ Award to Ms. Takken posthumously.

The Fund provides yearly grants-in-aides to women attending college and pursuing careers in the geosciences, and especially in the field of geology. Since the inception of the Fund, students have received over $30,000 to assist in their educational endeavors.
THE HERBERT G. & SHIRLEY A. DAVIS
OKLAHOMA STATE UNIVERSITY GEOLOGY SCHOLARSHIP

The Herbert G. and Shirley A. Davis Oklahoma State University Geology Scholarship was established in December, 2007. It endows undergraduate- and graduate-level studies at the T. Boone Pickens School of Geology at Oklahoma State University. This Scholarship is made available to full-time students who are pursuing degrees and careers in the field of geology.

Herb and Shirley Davis are Charter Members of the Oklahoma Geological Foundation, and have a long philanthropic history in supporting the earth sciences and geology. Mr. Davis has had a long career with majors and independents, as well as being a geological consultant for a number of years. Mr. Davis is an active member of the Oklahoma City Geological Society and the AAPG, as well as other civic and industry organizations. Mr. Davis continues to serve these organizations in many capacities. Mr. Davis was honored with the Foundation’s Legends’ Award in November 2009. The Davis Geology Scholarship is more than an endowment providing funds for deserving students at Oklahoma State University. Herb and Shirley interact with the recipients of the Scholarship with the intent of providing guidance and direction as the students pursues careers in the field of geology. The Endowment is truly a unique experience for students majoring in Geology.

THE

JOHN GATCHELL EARTH SCIENCE TEACHING ENDOWMENT

The John Gatchell Earth Science Teaching Endowment was established in 2008 by Lance Ruffel, Jim Trepagnier and others to honor Mr. Gatchell. The Endowment provides funding to stimulate and reward science teachers and their students in pre-college earth science studies, with specific emphasis on studies conducted in middle and high schools.

John Gatchell was a widely respected exploration geologist in Oklahoma City, whose passion was not only generating prospects, but mentoring young geologists as they pursued their professional careers. Mr. Gatchell tutored young children in the science of geology throughout his career. He was a born teacher and enjoyed nothing more than educating the young mind. Mr. Gatchell was a member of the Oklahoma City Geological Society and a Charter Member of the Oklahoma Geological Foundation. John Gatchell died in 2008.

The Foundation will direct funding from the Endowment to sponsoring science workshops and clinics for teachers, as well providing teaching aids, books and other materials necessary to foster geology and earth science curricula.
THE EXCELLENCE IN EARTH SCIENCE EDUCATION AWARDS

Jason F. & Julie D. Hamilton and the Oklahoma Geological Foundation established the Excellence in Earth Science Awards in 2006. The fund is an extension of the long standing Science Fair Awards which the Oklahoma City Geological Society established in 1956.

Mr. & Mrs. Hamilton and the Foundation created the Fund to stimulate and reward excellence in earth science education in middle school and high school levels. Mr. Hamilton also served as chairman of the Grants-In-Aid Committee for the Geological Society prior to being a director of the Foundation.

The Excellence in Earth Science Fund supported the State Olympiad Tournament in 2008. That tournament allowed students to compete head-to-head in events and projects that are related to the science of geology. Committee members have also assisted in the judging of geology-related events at various Science Fairs throughout Oklahoma. The fund continues to support teacher workshops that are associated with earth science projects.

In recent years, the Fund has recognized teachers from Putnam City High School in Oklahoma City, and Jenks High School in Tulsa, for their work and support in earth science studies.

In May of 2011, Foundation Director, Jason Hamilton, presents EESE Awards to:

Ms. Sharron Wolf (top), Cheyenne Middle School, Edmond, OK, $3,000 for an outdoor pond and streambed.

Mr. Travis Hurst (middle), Edmond North High School, Edmond, OK, $1,000 for rock, mineral and fossil sets.

Mr. Brad Sanders (bottom), Putnam City North High School, Oklahoma City, $5,350 for earth science teaching materials.
THE PHILIP BOYLE FOUNDATION & THE OKLAHOMA GEOLOGICAL FOUNDATION
ELEMENTARY & SECONDARY SCHOOL ENDOWMENT

The Philip Boyle Foundation, together with the Oklahoma Geological Foundation, established the Elementary and Secondary School Endowment in 2008. The Endowment provides financial assistance to teachers to establish earth science programs in elementary, middle and high schools. The Endowment also provides ongoing support to earth science teachers to enhance and expand their existing earth science programs.

Mr. Boyle was a prominent geologist in Oklahoma City. He was a member of the Oklahoma City Geological Society and a Charter Member of the Oklahoma Geological Foundation. Mr. Boyle died in 2000.

The Philip Boyle Foundation was established in 1989 to carry on the legacy of Mr. Boyle’s philanthropy by supporting various charities that operate in central Oklahoma.

The Boyle Foundation has provided funding for the Philip Boyle Tree House at the Oklahoma City Zoo, the Center for Children and Families, Inc. and the Children Center in Bethany.

Funds from this Endowment will be used to support workshops, and special teacher and students projects, as well as to purchase books and other teaching aids for both existing and new earth science programs in both elementary and secondary schools.
THE KENNETH STEWART CRONIN LECTURE FUND

The Kenneth Stewart Cronin Lecture Fund was established in 2006 by Thomas C. Cronin in honor and memory of his father, Kenneth Stewart Cronin. The Fund provides the financial support for the Oklahoma Geological Foundation’s Lecture Series, as well as events produced by the Oklahoma City Geological Society.

The function the Lecture Series is to disseminate timely geologic information on current exploration plays and topics of high common interest within the geosciences by hosting distinguished lecturers with national and international acclaim at the Oklahoma City Geological Society functions, the Foundation’s Awards Banquet and the Legends’ Dinner. In 2010, the Fund began supporting an annual geoscience workshop.

The Lecture Series is fittingly named after Mr. Cronin, whose early career came under the influence and tutelage of the legendary oil finders Ira Cram and Theron Warsson. Mr. Cronin explored domestically, as well as internationally, and he and his teams were credited with a number of exploration successes, including West Poison Spider in Wyoming, Adena in Colorado, and Lisbon in Utah.

Speakers for the Lecture Series Events have included:

~ Dr. Donald L. Gautier, USGS, in Menlo Park, CA;
~ Dr. G. Randy Keller, OGS Director and State OK Geologist, Professor of Geophysics and McCollough Chair, University of Oklahoma;
~ Dwight “Clint” Moore, Vice President, Corporate Development, ION Geophysical, Houston, TX;
~ Dr. Philip H. “Pete” Stark, Vice President of Industry Relations, IHS, Inc., Denver, CO;
~ Paul Logan, London, Chief Geologist, Heritage Oil, Ltd., London; and
~ Arthur Berman, a well-known Houston Geologist

Dr. Donald L. Gautier, USGS Menlo Park discussing Alaska Exploration at the Kenneth Stewart Cronin Lecture Event in November 2010.

**Our 2008 Activity: $18,500**

**Frederick H. and Lois M. Kate Endowment Award, $5,000**  
Date given: May 15, 2008  
Recipient: Mr. Chris Althoff, Oklahoma University undergraduate student  
Faculty Facilitator: Dr. James Forgotson

**Suzanne Takken Memorial Award, $5,000**  
Date given: May 15, 2008  
Recipient: Ms. Courtney Baker, Oklahoma State University graduate student  
Faculty Facilitator: Dr. Anna Cruse  
Master’s Thesis: Timing Extension in the Menderes Massif in Western Turkey Using Electron Microprobe, Ion Microprobe and Cathodoluminescence

**Beth Cronin Elementary School Endowment, $5,000**  
Date given: May 15, 2008  
Recipient: Ms. Shireen Spurr, Special Services/Science Lab Coordinator, St. Elizabeth Ann Seton Catholic School, Edmond, Oklahoma  
Awarded for the purchase of equipment and materials for the School’s science lab

**Herbert G. & Shirley A. Davis Oklahoma State University Geology Scholarship, $1,500**  
Date given: March 29, 2008  
Recipient: Ms. Morgan Unrast, Oklahoma State University undergraduate student  
Faculty Facilitator: Dr. Jim Puckette

**Excellence in Earth Science Education Awards, Given March 1, 2008, for State Olympiad**  
Recipients: Mayfield Middle School Science Olympiad Team, $100  
Putnam City High School Science Olympiad Team, $100  
Putnam City North High School Science Olympiad Team, $100  
Western Oaks Middle School Science Olympiad Team, $100  
Ms. Lesa Rohrer, Earth Science Teacher, Putnam City High School, Oklahoma City; Science Olympiad Team Leader, $600 Teacher Award  
Ms. Lesa Rohrer, Earth Science Teacher, Putnam City High School, Oklahoma City; Science Olympiad Team Leader, $1,000 School Award
Our 2009 Activity: $17,195

Frederick H. and Lois M. Kate Endowment Award, $5,000
Date given: May 7, 2009
Recipient: Alisan Templet, Oklahoma University graduate student
Faculty Facilitator: Dr. Gerilyn S. Soreghan
Master’s Thesis: Provenance and Depositional Setting of the Blaine Formation, Northwestern Oklahoma

Suzanne Takken Memorial Award, $5,000
Date given: May 7, 2009
Recipient: Nabanita Gupta, Oklahoma University post-graduate student
Faculty Facilitator: Dr. Roger Slatt
Master’s Thesis: Factors Controlling Geomechanical Properties of Fine-Grained Rocks

Beth Cronin Elementary School Endowment, $3,500
Date given: May 7, 2009
Recipient: Ms. Shireen Spurr, Special Services/Science Lab Coordinator, St. Elizabeth Ann Seton Catholic School, Edmond, Oklahoma
Awarded for the purchase of equipment and materials for the School’s science lab

Herbert G. & Shirley A. Davis Oklahoma State University Geology Scholarship, $1,500
Date given: May 7, 2009
Recipient: Mr. Tyler Treece, Oklahoma State University graduate student
Faculty Facilitator: Dr. Alex Simms
Master Thesis: Facies Architecture of an Arid Coastline within the Permian Rocks of Western Oklahoma

Excellence in Earth Science Education Awards
Date given: April 18, 2009
Recipient: Lesa Rohrer, Putnam City High School, Oklahoma City, Oklahoma
Science Teacher Award, $965; “Earthy Connections” Earth Science Teacher Workshop, creator/presenter, $500; “Earthy Connections” Earth Science Teacher Workshop costs, $465

Thomas C. Cronin Personal Scholarship Program (PSP), $615
Date given: April 18, 2009
Recipient: Ms. Lesa Rohrer, Putnam City High School, Oklahoma City, Oklahoma, “Earthy Connections,” Earth Science Teacher Workshop

Robert Klabzuba Personal Scholarship Program (PSP), $615
Date given: April 18, 2009
Recipient: Ms. Lesa Rohrer, Putnam City High School, Oklahoma City, Oklahoma, “Earthy Connections,” Earth Science Teacher Workshop
Our 2010 Activity: $46,500

Frederick H. and Lois M. Kate Endowment Award, $7,500; Given May 6, 2010
Recipient: Mr. Brian Varacchi, Oklahoma State University graduate student
Faculty Facilitator: Dr. Jim Puckette
Master’s Thesis: Seismic Characterization of the Woodford Shale

Suzanne Takken Memorial Award, $7,500; Given May 6, 2010
Recipient: Ms. Morgan Unrast, Oklahoma University graduate student
Faculty Facilitator: Dr. Jay Gregg
Master’s Thesis: Sedimentology and Diagenesis of Lower Mississippian Carbonate Mud Mounds in the Ozark Region, North America

Beth Cronin Elementary School Endowment, $4,000; Given May 6, 2010
Recipient: Ms. Shireen Spurr, Special Services/Science Lab Coordinator, St. Elizabeth Ann Seton Catholic School
Awarded for teaching equipment and materials for the science lab

Herbert G. & Shirley A. Davis Oklahoma State University Geology Scholarship, $1,500; Given May 6, 2010
Recipient: Mr. John A. Green, Oklahoma State University graduate student
Faculty Facilitator: Dr. Jim Puckette
Master’s Thesis: Reservoir Quality of the Barnett Shale Based on Chemical Stratigraphy

Excellence in Earth Science Education Awards, $1,000; Given May 6, 2010
Recipient: Ms. Miranda Suvak: Jenks High School, Jenks, Oklahoma

Thomas C. Cronin Personal Scholarship Program (PSP), $1,000; Given February 2, 2010

Robert Klabzuba Personal Scholarship Program (PSP), $1,000; Given February 2, 2010

Philip Boyle Foundation & Oklahoma City Geological Foundation, Elementary & Secondary School Endowment, $2,000; Given February 2, 2010

The John Gatchell Earth Science Teaching Endowment, $1,000; Given February 2, 2010

The Oklahoma City Geological Foundation, Non-Directed Funds, $5,000; Given February 2, 2010:
OPUBCO Communications Group, supporting their program: Newspapers in Education: Oklahoma Rocks!

The Oklahoma City Geological Foundation, $15,000; Non-Directed Funds, Given October 14, 2010:
OPUBCO Communications Group, supporting their program: Newspapers in Education: Oklahoma Rocks!
Our 2011 Activity, as of June 1st: $30,450

**Frederick H. and Lois M. Kate Endowment Award, $7,500**
- Date given: May 5, 2011
- Recipient: Brian J. Smith, Oklahoma City, Oklahoma
- OSU Faculty Advisor: Dr. Jay Gregg
- Master’s Thesis: Study on the Diagenesis of the Lower Cochrane Formation-Hunton Group (West Carney Hunton Field, OK) in Order to Verify Inundations and Exposures of the Lower Cochrane

**Suzanne Takken Memorial Award, $7,500**
- Date given: May 5, 2011
- Recipient: Natalie Ellyce Gentry, Charlottesville, Virginia
- OSU Faculty Advisor: Dr. Jay Gregg
- Master’s Thesis: Carbonate Hosted Sulfide Mineralization in the Southwest Davis Zinc Field, Southern Oklahoma

**Beth Cronin Elementary School Endowment, $4,100**
- Date given: May 5, 2011
- Recipient: Ms. Shireen Spurr, Special Services/Science Lab Coordinator, St. Elizabeth Ann Seton Catholic School, Edmond, Oklahoma
- Awarded for the purchase of equipment and materials for the School’s science lab

**Herbert G. & Shirley A. Davis Oklahoma State University Geology Scholarship, $2,000**
- Date given: May 5, 2011
- Recipient: Michael Parks, Mounds, Oklahoma
- OSU Faculty Advisor: Dr. Jim Puckette
- Master’s Thesis: Reservoir Properties of Des Moinesian (Marmaton) Granite Wash, Buffalo Wallow Field, Hemphill County, Texas.

**Excellence in Earth Science Education Awards**
- Date given: May 5, 2011
- Recipient: Mr. Travis Hurst, Earth Science Teacher, Edmond North High School, Edmond, Oklahoma
  - $1,000 awarded for the purchase of rock, mineral and fossil sets

- Recipient: Ms. Sharron Wolf, Science Teacher, Cheyenne Middle School, Edmond, Oklahoma
  - $3,000 awarded for the purchase of materials to construct an outdoor pond and streambed

- Recipient: Mr. Brad Sanders, Earth Science Teacher, Putnam City North High School, Oklahoma City, Oklahoma
  - $5,350 awarded for the purchase of earth science teaching materials.
